

RiMEA Award

The RiMEA e.V., a non-profit association for the promotion of evacuation safety, is offering the

RiMEA Award 2023 ("RiMEA Award")

The award is aimed at students who have written a final thesis (bachelor or master thesis) in the following subject areas:

- Crowd simulation
- People flows
- Evacuation
- Safety

The theses can deal with empirical as well as theoretical or numerical (e.g. computational methods, algorithms or simulation) issues.

Submitted work should have been completed between January 01, 2023 and December 31, 2023.

The award is endowed with a prize money of

500 €

In addition, the award winner will be invited to the upcoming general meeting, where the work should be presented in a short lecture (in person or via online presentation).

Please send your application with name and address as well as a copy of the work (as PDF) to: award@rimea.de

Proposals must be received by Jan 31., 2024.

By submitting the work, applicants agree that the work will be made publicly accessible via the RiMEA website in the event of a successful application. All submissions will be forwarded to the members of the RiMEA for evaluation and selection of the award winner as part of the selection process.

If you have any questions, please contact:
